GROUT HAZE REMOVER TECHNICAL APPLICATION GUIDE

DESCRIPTION

MORTAR, CEMENT & GROUT CLEANER

- Suitable to use on non-acid sensitive surfaces
- Easy to apply
- Fast-acting formula
- Internal & external use

Grout Haze Remover effortlessly removes surface residues such as mortar and cement, efflorescence, encrusted and engrained dirt, rust as well as calcium & limescale deposits.

Grout Haze Remover can be used indoors and outdoors after the installation process or during construction. All surfaces must be acid resistant surfaces such as ceramic tiles, porcelain, brick, clay and quarry tiles, terracotta, concrete and other types of natural stones.

DIRECTIONS FOR USE

- 1) Dependent on degree of contamination, Grout Haze Remover can be used neat or diluted up to 1:10 with water.
- 2) Pre-wet the surface, apply generously and allow the product to dwell for a few minutes before agitating and rinsing off with plenty of clean water.
- 3) Repeat the process if necessary, if using Grout Haze Remover indoors ensure good ventilation during and after use.

Please Note: Grout Haze Remover is not suitable for use with or around acid sensitive surfaces such as enamel, zinc, chrome, stainless steel, polished marble and limestone, etc. Always protect these areas and test the product in an inconspicuous area to determine suitability for intended use.

COVERAGE

Dependent on contamination, used neat or diluted up to 1:10 with water.

USAGE GUIDELINES

Dwell Time	Applications/ Coats	Application Method	Dilution
2-5 mins	1-2 applications	Brush/Mop/Sponge	Up to 1:10
