SUPERIOR STONE ENHANCER TECHNICAL APPLICATION GUIDE

DESCRIPTION

ONE-STEP COLOUR INTENSIFIER SEALER

- Enhances natural colour & texture
- Suitable for all types of natural stone surfaces
- Protects against staining from oil & water
- Suitable for internal & external use

Superior Stone Enhancer is a premium grade water based stone and masonry enhancing sealer that impregnates to protect against oil and water based stains, whilst enhancing the natural stone colours, leaving a matt finish.

Superior Stone Enhancer can be used for internal and external application, suitable for the application to all porous textured stone and masonry surfaces. **Not recommended for use on highly polished, ceramic/glazed or non-porous surfaces.**

DIRECTIONS FOR USE

- 1) Before application the surface must be completely clean and dry, apply an even coat with a low pressure sprayer, roller, natural fibre brush or sponge. Any excess sealer must be completely removed from the surface after 20-30 minutes, failure to remove the excess will lead to an unwelcome tacky, shiny finish.
- 2) Apply a second application approximately 45-60 minutes repeating the process. After application it is important that the stone surface is kept completely dry through the curing process, up to 72 hours. Any moisture or water left on the surface within this time may result in the sealer drying inconsistent showing hard to remove white patches.

Please Note: Areas not to be sealed must be protected with masking materials. It is strongly recommended that a small test area is completed before proceeding to ensure suitability for surface type.

MAINTENANCE

Clean treated areas with **Superior Tile & Stone Cleaner**, do not use harsh or abrasive cleaning agents as this can have a negative effect on the treated surface.

COVERAGE

Up to 25m² per litre

This will depend on the porosity of surface. Check the surface after application to ensure full effectiveness of impregnator.

USAGE GUIDELINES

| Drying Time | Applications/ Coats | Application Method | Dilution |
|-------------|---------------------|--------------------------------|-----------|
| 45-60 mins | 1-2 coats | Brush/Sprayer Roller/Sponge | Undiluted |

PRECAUTIONS

KEEP OUT OF THE REACH OF CHILDREN & PETS

- H302: Harmful if swallowed.
 H315: Causes skin irritation.
 H319: Causes serious eye irritation.
 P102: Keep out of reach of children.
 P262: Do not get in eyes, on skin, or on clothing.
 P280: Wear protective gloves.
 P301+330+331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
 P302+350: IF ON SKIN: Gently wash with plenty of soap and water.
 P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P309+311: IF exposed or if you feel unwell: Call a POISON CENTRE or doctor.
 P332+313: If skin irritation occurs: Get medical advice.
 P337+313: If eye irritation persists: Get medical advice.
