GROUT MAGIC TECHNICAL APPLICATION GUIDE

DESCRIPTION

Grout Magic is a great way to restore and renew your wall and floor grout to a better than new condition. Grout Magic grout colourant is available in 10 stylish colours, when fully cured, permanently seals the grout to help protect against mould, mildew and staining.

In many instances when the grout has become permanently stained and no amount of cleaning can bring back the original uniform clean look of the grout. In these cases it is best to apply **Grout Magic** to restore the grout to a permanently sealed even coloured finish.

Grout Magic can restore even the dirtiest, damaged and ugly grout to a new look finish. This process will permanently colour and seal the grout to make the grout look even better than the day it was installed. **Grout Magic** is safe and simple to use, this unique formula allows for easy application by the professional tradesman and DIY homeowner

DIRECTIONS FOR USE

- 1) Make sure the grout joint is clean and thoroughly dry before applying **Grout Magic** colour sealer, where necessary use the Grout Magic Pre-Treatment before application.
- 2) **SHAKE BOTTLE & MIX WELL BEFORE USE.** Apply product thinly onto the grout joint using a brush or sponge working it evenly onto the surface. Wipe away any sealer from the tile surface instantly or within 60 minutes of application. For best results apply two coats allowing 1-2 hours drying time between applications. Allow a further 48 hours drying time before wetting (using shower room) or cleaning the treated floor area. If using more than 1 bottle of a single colour for an application, mix all material together to ensure colour match and consistency. **This product is not recommended for use around porous surfaces i.e. unglazed tiles and natural stone surfaces as it could permanently stain.**

Please Note: Poor application, applying the product to heavy or thickly onto the grout joint can result in blistering, cracking and de-bonding of the colour sealer. **Due to print limitations, colour swatches on the label are for guidance, actual colour may vary.**

SUGGESTED FIRST AID PROCEDURES

EYE AND SKIN CONTACT: Flush thoroughly with water, if irritation persists seek medical attention. **IF INGESTED:** Drink 1 to 2 glasses of water, do not induce vomiting and seek medical attention.

STORAGE INFORMATION

Product shelf life is 36 months when unopened and stored at room temperature. Store product in original container only. Close cap on container after each use. Use only when surface temperatures are between 50° F – 90° F (10° C – 32° C).

COVERAGE

3-15m² per 237ml bottle

This will vary dependent on tile size & grout width.

USAGE GUIDELINES

Drying Time	Applications/ Coats	Application Method	Dilution
1-2 hours	1-3 coats	Brush/ Sponge	Undiluted
