Smartseal UK Ltd, Unit 15-16, Annwood Lodge Business
Park, Arterial Road, Rayleigh, Essex SS6 7UA

Tel: 01268 722500

www.smartseal.co.uk

2. Composition / Information on ingredients.

Hazardous Ingredient Name	CAS No	Content
Ammonia solution 25-35%	1336-21-6	0-25%
Diuron (ISO)	330-54-1	

3. Hazards identification.

This product is not classified as hazardous when used as intended.

4. First-aid measures.

4.1 Eye contact

Flush out eyes with clean water, whilst lifting the eyelids, continue for 15mins or until the irritation subsides. Seek medical help if irritation persists.

4.2 Skin Contact

Wash area with plenty of soap and water. Do not allow to dry on skin, apply moisturising cream as necessary.

4.3 Ingestion

Do not induce vomiting. Seek medical attention if irritation or symptoms persist.

5. Fire fighting measures.

Use extinguisher media appropriate to surrounding fire conditions.
Does not burn. No hazardous releases in case of fire.

6. Accidental release measures.

Cleaning up

Spills should be contained using sand, earth or absorbent granules and placed in containers for disposal. Although this product is not classified as harmful to the environment prevent spills from entering the drains and watercourses.

7. Handling and storage.

7.1 Handling

Apply “Common Sense” measures in handling. Maintain good standards of personal hygiene. Food should not be prepared, stored or consumed in area of product use. Keep products in their original containers.

Storage

Store in tightly closed labelled containers. Store in cool but frost free dry area ideally in temperatures of 5°C-40°C. If the containers are stored outside and there is a risk of a large spillage then consideration should be given to providing bunding to prevent release to the environment.
Keep out of reach of children.

8. Exposure controls / personal protection.

If large use of this product is expected such as would be the case on large commercial projects then PVC / Rubber gloves and safety glasses should be worn if contact is expected.

9. Physical and chemical properties.

Appearance	Black or Red Liquid
Odour	Ammoniacal
PH	9-10
Viscosity	10-12 Poise @ 20 ^o C
Freezing point	N/A
Boiling point	N/A
VOC	24
Flash point	N/A
Explosive properties	N/A
Density	1.03 g/cm ³ @20 C
Solubility in water	Soluble

10. Stability and reactivity.

Chemically stable, no particular incompatibility. Do not allow to freeze.

11. Toxicological information.

No data is available on this product.

12. Ecological information.

No data is available on this product.
