

SMARTSEAL PATIO REVIVE

Product Description SMARTSEAL Patio Revive Concentrate is a new type of Organic growth, Mold and Algae treatment that safely removes all type of green growth **reducing the need for any washing off, scrubbing or pressure washing**. Totally safe and non-hazardous to children and pets once dry **Patio Revive** is made from biodegradable ingredients and does not include any bleach or acid contents.

SMARTSEAL Patio Revive is available in 5 litre concentrate. **Patio Revive** is ideal for removing green matter from all hard surfaces prior to painting, staining, sealing, applying roof coatings or for general green growth and algae control.

Benefits

- Easy application.
- No need for pressure washing or scrubbing after application.
- Powerful fast acting formula.
- Biodegradable

Areas for Use

- Paved areas such as patios and driveways.
- Block Paving & Concrete
- Fencing, sheds, decking and greenhouses.
- Perspex, polycarbonate panels and garden furniture.
- Tarmac & Asphalt

Limitations

- Dilute only as directed.
- Do not apply if rain is imminent (within 6 hours)
- For use only as specified as a surface biocide.
- On heavily soiled areas 2 applications may be required.

Application 5 litre Concentrate - Dilute with water at a maximum rate of **1 Part Patio Revive to 5 Parts water**, mix briefly before applying. Apply by watering can with a rose sprayer, garden sprayer, paint brush or sweeping brush depending upon area to be treated.

Whilst this product is designed to be safe to use on most 'water safe' surfaces we recommend that you test a small inconspicuous area if unsure.

Apply at an approximate rate of 1 litre per 3 to 5m². N.B: ensure any debris such as leaves, twigs, loose soil or weeds are removed from surfaces to be treated prior to application. After applying, expect to see green growth slowly disappear after 3 to 5 days (similar to the way weed killers work).

On heavily soiled surfaces a second application may be required.

The 5 litre concentrate will cover approx. 125 square metres depending on level of soiling.

Health & Safety

Consult MSDS for full list of hazards.

Storage

Protect from frost. Store only in original containers.

Shelf Life

This product should be used within 2 years of manufacture.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired. Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product.
