

SUPERIOR STONE IMPREGNATOR TECHNICAL DATASHEET

DESCRIPTION

PREMIUM H2O IMPREGNATING SEALER

• Ultimate stain protection • Suitable for interior & exterior use • Protects against oil & water stains • Environmentally friendly Superior Stone Impregnator is a premium grade water based stone and masonry impregnator that penetrates into the surface to protect against oil and water based stains.
Superior Stone Impregnator

can be used for internal and external application, suitable for the application to all porous textured stone and masonry surfaces. Not recommended for use on highly polished, ceramic/glazed or non-porous surfaces.

Directions for Use

- 1) Before application the surface must be completely clean and dry, apply generously and evenly with a low pressure sprayer, roller, natural fibre brush or sponge, remove any excess sealer with dry cloth after 20-30 minutes.
- 2) Apply a second application approximately 45-60 minutes repeating the process. It will take at least 24 hours before the product will offer full protection. Until this has happened, keep the surface free from water and oil spills, as stains may occur before fully cured.

Please Note: Areas not to be sealed must be protected with masking materials. It is strongly recommended when using coloured grouts that a stain test is completed before proceeding.

Maintenance

Clean treated areas with Superior Tile & Stone Cleaner, do not use harsh or abrasive cleaning agents as this can have a negative effect on the treated surface.

Coverage

Up to 30m² per litre
This will depend on the porosity of surface. Check the surface after application to ensure full effectiveness of impregnator.

Usage Guidelines

Drying Time	Applications/ Coats	Application Method	Dilution
45-60 mins	1-2 coats	Brush/Sprayer Roller/Sponge	Undiluted

Precautions

KEEP OUT OF THE REACH OF CHILDREN & PETS

H302: Harmful if swallowed.
H315: Causes skin irritation.
H319: Causes serious eye irritation.
P102: Keep out of reach of children.
P262: Do not get in eyes, on skin, or on clothing.
P280: Wear protective gloves.
P301+330+331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
