

Technical Datasheet – Porcelain Sealer

PRODUCT DESCRIPTION

Smartseal Porcelain Sealer is a hard wearing, breathable, protective coating for modern internal & external porcelain tiles. The porcelain tile sealer can also be used on ceramic wall and floor tiles.

PURPOSE

Helps to prevent general soiling & surface staining. Although this is not a cosmetic product, it does act as a colour enhancer and leaves a subtle wet look sheen once dry. However, its main purpose is to make cleaning and maintenance easier.

SPECIAL PROPERTIES

- Suitable for use on porcelain and ceramic tiles
- Ultra-durable sealer for long term protection
- Can be used externally on patios
- Quick drying and easy to apply

APPLICATION INSTRUCTIONS

Application temperature range: 10° to 23°C
Always apply to a test area or spare tile first.

****If applied to a surface where a "sweep-in" pointing compound has been used within the last 6 months, the porcelain must be fully cleaned with Smartseal Residue Remover prior to sealant application.****

Apply a single thin, consistent coat, with a microfibre cloth, microfibre flat mop or paint pad. Avoid application marks and excess pooling of sealer.

COVERAGE

Average coverage: 10 - 20m² per litre, dependant on surface texture and porosity.

PACKAGING

Smartseal Porcelain Sealer is available in 100ml Samples, 1L, and 5L plastic containers.

STORAGE

Kept in a dry place and out of direct sunlight. 12 Month Lifespan.

HEALTH AND SAFETY

SmartSeal Porcelain Sealer is a solvent free sealer. It is recommended safety glasses are worn. Wear PVC gloves and avoid contact with skin and a facemask.

Refer to the Safety Data Sheet for further information.
