

Technical Datasheet – Xtreme Moss STOP

PRODUCT DESCRIPTION

Our fast-acting moss killer will not only kill unsightly moss, algae, and lichen, it also acts as a preventative formula and stops moss or algae growth returning. The advanced moss killing formulation will swiftly kill moss on roofs, driveways, patios and paths. Suitable for use on concrete, tarmac, astroturf and all types of natural stone, it can keep your outdoor areas looking pristine at all times. As a preventative, it will keep working for over 12 months after application to help stop any re-growth of moss and algae.

PURPOSE

Xtreme Moss Stop will help protect your property from the annoying regrowth of moss, algae and lichen. It will not only kill moss, it will also leave a protective film on the surface after application to help prevent the regrowth of moss in the future. You can then enjoy your outdoor spaces free of any moss growth and avoid the need for frequent reapplications as seen with other weaker moss killing formulations.

SPECIAL PROPERTIES

- Non-Hazardous
- Inhibits Regrowth
- Can be Used on Wood, Patios, Drives, Roofs & Tarmac
- Ready To Use With Spray Nozzle Included
- Bleach and Chlorine Free

APPLICATION INSTRUCTIONS

Spray liberally on areas of moss growth directly from the container without diluting. The moss killing solution will dry after application within 20-30 minutes. We recommend wearing protective gloves during application, however this is not essential as the moss killer does not contain harmful chemicals. Xtreme Moss Stop is specially formulated to be safe around children, pets and wildlife. Just spray the moss killer and leave it to take effect - no need to rinse off after application.

COVERAGE

Covers up to 30m²

PACKAGING

Smartseal Xtreme Moss STOP is supplied in 5 litre plastic containers and includes an application hose.

STORAGE

If it is unopened and subject to storing in the correct conditions, the primer has a shelf life of 12 months from the date of manufacture. Use within 3 months of opening. Store upright above 5 degrees centigrade in original containers, out of direct sunlight. Do not allow to freeze. Keep out of reach of children.

HEALTH AND SAFETY

Xtreme Moss Stop is non-toxic and non-flammable. It is recommended safety glasses are worn. Do not smoke. Keep application area well ventilated. Wear PVC gloves and avoid contact with skin.

Refer to the Safety Data Sheet for further information.
